SATURDAY EVENING. OCT. 20, 1906.

The first mention of petroleum in America was made by Father De la Roche d'Allien, a Franciscan, in 1629. It may be a surprise to many people to know that both the product itself and the names petrol and petroleum were familiar at least as far back as the middle of the fourteenth century. In the Sloave manuscript (afteenth century) mention is made both of rock oil and of the correct descention of the name which is mediceval Latin and of rourse has nothing to do with Peter: "Petroleum, oleum est factum de petra. G(aliice), petroille." ("Petroleum is an oll made from rock-in French, petroille.") The property of drawing fire had struck the imagination long before the work quoted in "Nature' was published. In 1506 Lodge used it in a metaphor: "As the clay petrol draweth fire, so the looks do gather affection." The word petrol (or petreol) disappeared from English and did not return until the days of the motor car industry, when it was reintroduced from the French in the sense of refined

Duels With Pistols.

Discussing pistols as dueling weap ons, the Paris Figure sought the views of a man who had the reputation of ar expert on the field of honor. He at once began to rail at duels with pistols. He could not bear even to speak of them. The fact was that he had once himself at an encounter of that kind received a ball in the shoulder.

"Then you disapprove of them simply ecanse you were defeated?"

"Why, I was not defeated." "What!"

"No; I was a second. You may well believe that I promised myself never to mix again in affairs of that sort. However, one day I had to accompany a friend on the field. He had asked it of me as a personal favor. I could not refuse. But I insisted upon one condition.

"What was that?" "That I should climb a tree during the firing." "A good scheme."

"You think so? Well, I was wounded again. My friend fired in the air!"

Soldiers In Battle.

"It is important to be cool and self possessed at the beginning of a fight," writes one who has commanded men "As soon as the first shot is fired men become serious and go into action with a calmness which is most impressive. High explosive shells, with their deafening noise, make the most impression on young and unseasoned soldiers, while shrapnel affects the old soldiers the most. Those who imagine that it is possible to see a heroic look on men's faces at a decisive moment are completely mistak Their faces are pale and have a hard look about them. The struggle which is going on within them betrays itself by the nervous haste of their

Human Blood Marks.

A tale of horror was told by marks of human blood in the home of J. W. It completely cured me and I have remained well ever since "It cures Hemmorhages, Chronic Coughs, Settled Colds and Bronchitis, and is the only known cure for Weak Lungs. Going Housekeeping? William H. Peck, If so, you can hardly get along without spoons, knives and forks. The silver-plated are without a doubt the most economical in the end. They wear longer, look better and cost very little more than the ordinary kinds. We can even supply silver-plated knives with steel blades.

Your sideboard is bardly complete without a silver set. Silver cake and fruit baskets should also be placed there.

A candelabra with will brighten the table considerably. After the spread has been cleared off a silver fern dish should be placed on the table.

The necessary things in cut-glass are the decanter, the berry bowl and the celery dish. In a great many homes the ice cream is served on cut glass plates.

On your dresser place a traveling alarm clock and a sterling silver or silver-plated toilet set, also a hat and clothes brush.

You will find plenty use of a number of small silver-plated trays. One has always so many trinkets to take care of.

There should be a jewel case on the dresser, if only for appenrance sake. Over night it is a good place to keep the watch and Z-K Gold Chain. **GROCERIES, AND DEALER IN FRESH**
